WHEREAS these wildfires have created a substantial amount of ash, burnt vegetation, and other such debris over large areas within the county; and

WHEREAS widespread hazardous structural debris, which may contain dangerous toxins including heavy metals such as arsenic, cadmium, copper, lead, and asbestos, must be cautiously and expeditiously removed and properly disposed of; and

WHEREAS under the provisions of Government Code section 8558(b), I find that the conditions caused by these wildfires, by reason of their magnitude, are or are likely to be beyond the control of the services, personnel, equipment, and facilities of any single local government and require the combined forces of a mutual aid region or regions to appropriately respond; and

WHEREAS under the provisions of Government Code section 8625(c), I find that local authority is inadequate to cope with the magnitude of the damage caused by these wildfires; and
